**Subject:** [EXTERNAL] Fw: Aquasana filters

Hello Tammy,

I found the email I mentioned about the counter-top water filters used at a different contaminated (PFOA/PFOS) groundwater site:

Aquasana, Inc. base unit - Claryum Countertop (AQ-4000W) - found here: <https://www.aquasana.com/drinking-water-filter-systems/countertop-attached>). However, Aquasana also carries other Claryum filters including under counter models found here: <https://www.aquasana.com/drinking-water-filter-systems>.

These filters were certified by NSF International to remove PFOA and PFOS: <http://www.nsf.org/newsroom/nsf-international-certifies-first-water-filters-pfoa>.

If you have additional questions or concerns please send me reach out.

Sincerely,

Karl

---

Below is information about the Aquasana filters that DNREC used in Blades, DE for PFAS contaminated drinking water:

We used the Aquasana, Inc. base unit - Claryum Countertop (AQ-4000W) - found here: <https://www.aquasana.com/drinking-water-filter-systems/countertop-attached>). However, Aquasana also carries other Claryum filters including under counter models found here: <https://www.aquasana.com/drinking-water-filter-systems>.

These filters were certified by NSF International to remove PFOA and PFOS: <http://www.nsf.org/newsroom/nsf-international-certifies-first-water-filters-pfoa>.
